SKILLS

VueJS, React, AngularJS, Docker, AWS (Lambda w/ Node.js, API Gateway, S3), Ruby on Rails, SQL, Git, HTML5, Sass

EXPERIENCE

Web Developer • *New York University*, New York, NY   March 2018 - Present

- Specializes in modern frontend web development projects in VueJS and AngularJS.
- Implements testing coverage -- unit (Jasmine, Vue Test Utils) and integration (Cypress).
- Builds and maintains configurations for frontend JavaScript code with yarn, Babel, Webpack, and ESLint, including polyfills and code-splitting features.
- Trained in WCAG Accessibility requirements and adds accessibility features to legacy webpages, especially with semantic HTML, CSS improvements, and jQuery.
- Project lead for the development, testing, and deployment of serverless functions via AWS Lambda and API Gateway. Deploys the technology stack with Serverless Framework.
- Containerizes (Docker) the fullstack web development environment. Images used for testing, asset building, and deployment in cloud-based CI/CD environment CircleCI.

Hacker in Residence/JumpStart TA • *App Academy*, New York, NY   Jan 2018 - March 2018

- Taught novice programmers, conducts admissions interviews, and improves internal websites and tools.

Enrollment Coach • *Columbia University*, New York, NY   Jan 2017 - Jul 2017

- Implemented team-wide Excel improvements in admissions database management, greatly improving the efficiency of email communications with 1000+ students.

Lecturer (Statistics) • *University of the Philippines*, Manila, Philippines   Aug 2015 - Jun 2016

Instructor • *Virginia Institute of Autism*, Charlottesville, VA   Jun 2012 - Jun 2013

Operations Associate • *Lot18.com, New York, NY*   Jan 2011 - Aug 2011

- Engineered Salesforce feature-expansion, allowing our sales team to automate the generation, sending, and tracking of electronic contracts.

EDUCATION

App Academy • 2017

- Rigorous 1000-hour software development course with <3% acceptance rate.
- TDD, scalability, algorithms, OOP, coding style, REST, security, single-page apps, and web development best practices.

Columbia University • 2012 • Bachelor of Arts in Sociology, Business Management. 3.63 G.P.A.

- *Curriculum Highlights*: Introduction to Computer Science (Java), Statistics, Calculus III
- Managed layout duties as Editor-In-Chief of the Federalist Paper.
- Oversaw website redesign and gig tracking for 700+ employment gigs per year as Managing Director Columbia Bartending Agency.
